Society of Environmental Toxicology and Chemistry

2017 ANNUAL MEETING ♦ APRIL 27–28

OCEAN INSTITUTE

24200 Dana Point Harbor Drive ♦ Dana Point, CA 92629

PROGRAM HIGHLIGHTS

Conference location: the Ocean Institute is a uniquely attractive conference venue at a central location, selected to minimize long drives to the extent possible.

Special Sessions: This year's program features invited speakers on focused topics each day:

- April 27: Contaminants of Emerging Concern
- April 28: Nutrients and Harmful Algal Blooms
- Unrestricted platform presentations from local scientists featured on both April 27 and 28

April 27 - Evening Poster Social and Happy Hour (5:00 – 7:30)

Take the time to meet local scientists, catch-up with old colleagues, and learn about ongoing research by students and others throughout Southern California. Do all of this while enjoying the beautiful views from our venue. Beer, wine, and heavy appetizers are included.

April 28 - Presentation of Awards and Closing Remarks (4:00 – 5:00)

We highly encourage presentation of student proposals and research at the meeting and offer awards for Best Student Poster and Platform Presentation Award.
