

JOB OPENING

Entry Level Aquatic Toxicologist

Pacific EcoRisk (located between San Francisco and Sacramento, CA) has a full-time career-track position open for an *entry level Aquatic Toxicologist*. This position will consist of lab work performing water and sediment toxicity and bioaccumulation tests, and some fieldwork collecting water and sediment samples. We provide all necessary training; however, the successful applicant will be knowledgeable regarding the basic principles and techniques used in aquatic lab research and testing, basic statistical analyses, basic water quality characteristics and analytical methods. In addition, the successful applicant will be able to work both independently and within a team environment, to establish and maintain effective working relationships with others, and to communicate effectively verbally and in writing. B.S. in Environmental Studies, Aquatic/Fisheries Biology, Environmental Toxicology, or related environmental field necessary. Positive attitude absolutely essential. In addition to a great informal working environment, Pacific EcoRisk offers health and life insurance, secure retirement benefits, generous paid-time-off policy, and significant advancement opportunities for the right persons. Please email resume/CV to Stephen Clark at slclark@pacificecorisk.com.

Starting Salary - \$41,600.00/year
